#### CEO'S REPORT TO UNITHOLDERS

June 30, 2012

Richards Packaging has been providing packaging solutions to small-and medium-sized North American businesses since 1912. Over this period Richards Packaging has developed into the leading packaging distributor in Canada, and the third largest in North America, with one of the most diverse product and service offerings available to product marketers.

Second quarter performance mirrored the first quarter results, returning to 2008 pre-financial crisis levels, with total revenue up 9.6% mainly from organic revenue growth at Richards Packaging US. EBITDA<sup>1</sup> was up \$0.7 million, or 14.4%, due to higher sales. Gross profit and EBITDA as a percent of sales strengthened to 16.2% and 11.5% respectively. Net income was up \$1.6 million, or  $6\phi$  per Unit, mainly due to the mark-to-market gain on the exchangeable shares.

First half results reflect growth that began in the fourth quarter of 2011. Total revenue was up 8.7% with organic revenue growth of 7.1% in addition to incremental revenue with a U.S./Cdn. 3% weakening of the dollar. EBITDA was up \$1.4 million, or 13.8%, on revenue growth. Net income was down \$0.5 million, or 4% per Unit, due to higher income taxes and the mark-to-mark loss on exchangeable shares.

The \$1.7 million of free cash flow<sup>2</sup> generated in the second quarter was utilized to pay down \$0.5 million of debt and to cover working capital needs. In June, we began to purchase Units under our normal course issuer bid. Over the next six months we expect to lower our investment in inventories and make further payments on our debt<sup>4</sup>.

With the distributions no longer eligible for interest deductibility we continue to utilize loss carry forwards to fully shield Canadian taxes and to pay out distributions as a full return of capital. Loss carry forwards should fully shield Canadian taxes until approximately the fourth quarter of 2012.

The Fund paid monthly distributions of  $6.55\phi$  per Unit during the first quarter, which represented an annualized yield of 9.0% on the June  $30^{th}$  closing price of \$8.77 per Unit. The payout ratio<sup>3</sup> for the second quarter was 58%, down from 61% for 2011.

We appreciate the support of our customers, suppliers, employees and investors and will continue to execute on our commitments with the highest degree of quality, care and integrity.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

(expressed in thousands, except where otherwise indicated)

July 31, 2012

This management's discussion and analysis ("MD&A") of Richards Packaging Income Fund for the second quarter should be read in conjunction with the attached condensed interim financial statements dated June 30, 2012, the first quarter report dated May 11, 2012, the 2011 Annual Report and the 2011 Annual Information Form dated March 7, 2012 respectively. Results are reported in Canadian dollars and have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a consistent basis with the 2011 annual financial statements.

# **Fund Profile and Description of the Business**

Richards Packaging Income Fund (the "Fund") is an open-ended, limited purpose trust established under the laws of the Province of Ontario, Canada by a Declaration of Trust dated February 26, 2004. The Fund completed an initial public offering of trust Units (the "Units") on April 7, 2004, to facilitate the acquisition of Richards Packaging Inc. Units are listed on the Toronto Stock Exchange under the symbol RPI.UN.

Richards Packaging serves a wide customer base that is comprised of approximately 11,000 regional food, beverage, cosmetic, specialty chemical, pharmaceutical and other companies. The primary source of revenue is from the distribution of over 5,000 different types of packaging containers and related components sourced from over 600 suppliers and its three dedicated manufacturing facilities. Sales from these manufacturing facilities represent approximately 15% of the total revenues of Richards Packaging. In addition to providing its customers with a wide range of packaging solutions, Richards Packaging provides design and development services and comprehensive logistics management through 17 sales offices and one agency location.

# **Highlights and Selected Financial Information**

Highlights of the overall performance for the second quarter include:

- Revenue up \$4.3 mil., or 9.6%, mainly due to organic growth in Richards Packaging US,
- EBITDA<sup>1</sup> up \$0.7 mil., or 14.4%, representing an increase of 0.5% to 11.5% of sales,
- Current income taxes up \$0.4 mil. due to higher Richards Packaging US earnings and lower US bonus depreciation; first quarter taxes were paid in April bringing cash balances to a more normal level of \$0.2 mil.
- Working capital increased \$2.2 mil. due to \$2.0 mil. higher inventory, \$0.2 million increase
  in receivables and \$1.0 mil. higher prepaid expenses offset by \$1.1 mil. increase in
  payables,
- Extended the term and revolving credit maturities to May 31, 2015 at a 0.95% reduced bank margining cost for a fee of \$0.1 mil.;
- Free cash flow<sup>2</sup> of \$1.7 mil. was deployed to repay \$0.5 mil. of term debt, fund working capital and purchase Units under our normal course issuer bid;
- Increased distributable cash flow<sup>2</sup> by \$0.2 mil., or 1.3¢ per Unit, resulting in a 58% payout ratio<sup>3</sup>, and
- Paid monthly distributions of  $6.55\phi$  per Unit representing a 9.0% annualized return on the June  $30^{th}$  closing price of \$8.77 per Unit.

The distribution policy is set by the Trustees after giving careful consideration to the projected cash flows of the Fund, the long-term sustainability of the distribution level and the balance of risks and future prospects of the investments of the Fund. This policy is not set based upon net income due to various non-cash accounting charges that depress net income such as amortization, mark-to-market losses on exchangeable shares and deferred income taxes. Factors considered when setting this level included the Income Trust tax beginning in 2011, the current low interest rates and the cash needs of operations. Surplus distributable cash is utilized to avoid typical seasonal borrowing, to pay down term debt and for Units purchased under our normal course issuer bid.

# **Review of Operations**

Richards Packaging's operations were approximately half in Canada and half in the United States ("Richards Packaging US") similar to performance in 2011. Approximately one-third of Richards Packaging's sales are concentrated in Toronto, Montreal and Vancouver and one-third in Los Angeles, Seattle, Reno and Portland.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

(expressed in thousands, except where otherwise indicated)

July 31, 2012

Revenue increased by \$4.3 million, or 9.6%, for the second quarter from the same period in 2011 due to organic growth of 7.3% (\$3.3 million) and the translation impact of Richards US, with the Canadian dollar weakening by  $4.4\phi$  to U.S./Cdn.\$0.99 (\$1.0 million). Revenue increased by \$7.8 million, or 8.7%, for the first half from the same period in 2011 due to organic growth of 7.1% (\$6.5 million) and the translation impact of Richards US, with the Canadian dollar weakening by  $3.0\phi$  to U.S./Cdn.\$0.99 (\$1.3 million). Similar to previous quarters, revenue growth is being driven mainly by Richards Packaging US.

Cost of products sold (before amortization) for the second quarter and the first half increased by \$3.6 million, or 9.5%, and by \$6.4 million, or 8.6%, from the same periods in 2011, respectively. Gross profit margins were 0.3% below the first quarter levels at 16.2% for the second quarter. Inventory reserves of \$0.2 million for the second quarter, \$0.5 million for the first half, along with foreign exchange, ocean freight and price degradation in select large accounts in response to increasing competitive threats continue to keep margins down below 17%. Resins price volatility did not have a material impact on margins as a result of management's practice of passing through increases and decreases to customers.

General and administrative expenses (before amortization) for the second quarter and first half were consistent with the same periods in 2011.

The foreign currency loss from operations resulted from exchange rate changes applied to our U.S. dollar denominated working capital position within our Canadian operations.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

(expressed in thousands, except where otherwise indicated)

July 31, 2012

EBITDA<sup>1</sup> for the second quarter and first half increased by \$0.7 million, or 14.4%, and by \$1.4 million, or 13.6%, from the same periods in 2011, respectively. As a percent of sales, EBITDA was at 11.5% for the second quarter and 11.6% for the first half, up 0.5% from the same periods in 2011. Changes were a result of the factors referred to above.

Amortization of \$1.9 million for the second quarter and \$3.8 million for the first half were mainly comprised of \$1.6 million and \$3.2 million respectively for intangibles assets amortization, which represents a charge for customer relationships and patents. Depreciation for capital assets was \$0.3 million and \$0.6 million for the second quarter and the first half respectively, which annualized, is approximately Richards Packaging's normalized annual maintenance capital expenditure requirement.

Patent defense costs relate to ongoing expenditures incurred to establish that a competitor has infringed our Dispill patent and trademark with a product launched in July 2006.

Financial expenses were higher for the second quarter compared to the same period in 2011 due to bank refinancing fees of \$0.1 million offset by lower interest on less term debt. Effective May 18, 2012, bank margining costs were reduced by 0.95% and the term and revolving credit maturities were extended to May 31, 2015.

Exchangeable shares mark-to-market gain reflects a unit price decrease during the second quarter to \$8.77 per Unit but reverts to a loss with a unit price increase of \$1.27 for the first half. Exchangeable shares distributions remained at \$0.2 million per quarter.

Income tax expense increased \$0.1 million for the second quarter and \$0.4 million the first half compared to the same periods in 2011, respectively, mainly due to higher income in Richards Packaging US and \$0.1 million in higher bonus depreciation deduction in 2011.

Net income for the second quarter was \$3.7 million and \$3.0 million for the first half, which represented 19.8¢ and 27.6¢ per Unit on a diluted basis, respectively. A time-weighted average of 10,742,547 Units and 1,059,043 exchangeable shares, exchangeable into Units on a one-for-one basis, were outstanding for the first half.

#### Distributable Cash Flow<sup>2</sup>

The distributable cash flow<sup>2</sup> definition excludes changes in working capital and capital expenditures for the expansion of the business, as they are necessary to drive organic growth and are expected to be financed by a \$5.0 million revolving facility available to Richards Packaging (nil drawn; 2011 – nil drawn).

Distributable cash flow<sup>2</sup> for the second quarter and first half was \$0.2 million and \$0.4 million higher than in the same periods in 2011. Overall the increase was attributed to increased EBITDA<sup>1</sup> offset by higher cash income taxes and maintenance capital. Cash income taxes for the second quarter increased \$0.4 million from the same period in 2011, due to the increase in earnings in Richards Packaging US.

Free cash flow<sup>2</sup> of \$1.7 million for the second quarter and \$3.3 million for the first half was deployed to repay \$0.5 million and \$1.0 million of debt, respectively, and fund working capital.

Monthly distributions for the first half at  $6.55\phi$  per Unit, represents an annual yield of 9.0% on an \$8.77 price per Unit at June 30, 2012 and a payout ratio<sup>3</sup> of 57%.

# Liquidity and Financing

# Cash flows from operating activities

Cash flow from operating activities for the second quarter was \$1.8 million, down \$1.2 million over the same period in 2011, primarily due to a \$1.6 million increased investment in working capital to fund growth. For the first half, cash flow from operating activities was \$2.2 million, down \$2.8 million primarily due to \$3.5 million of working capital. During the second quarter, working capital increased by \$2.2 million mainly on higher inventory of \$2.0 million, higher prepaid expenses of \$1.0 million, higher income taxes of \$0.1 million and higher receivables of \$0.2 million while reflecting the same past due profile as at year end. These were offset by the increase in payables of \$1.1 million.

The financial structure of the Fund allows for maximum distributions of cash flow from operations to the unitholders and exchangeable shareholders as outlined above in the distributable cash

discussion. In recognition of impending higher interest rates and taxes, 42% of the cash flow from operations was diverted to avoid seasonal debt borrowings for working capital and repay term debt. Actual distributions and dividends paid during the second quarter, including those declared for June 2012, were \$2.3 million with \$0.8 million declared for June, which was paid July 13<sup>th</sup>.

#### Normal Course Issuer Bid

On March 13, 2012, the Fund initiated a normal course issuer bid to purchase up to 200,000 Units prior to March 12, 2013. During the first half, 5,600 Units (2011 – nil) were purchased at an average price of \$8.75 per Unit and since the inception of the buyback program in 2009, 116,942 Units were purchased at an average price of \$7.27 per Unit.

#### Cash income taxes

The cash income tax expense, returning to 2008 pre-financial crisis levels, was \$0.7 million for the second quarter and \$1.4 million for the first half, representing current income tax for Richards Packaging US, as the utilization of the loss carry forwards were employed to eliminate any Canadian taxes.

#### Capital expenditures

Maintenance capital expenditures for the second quarter were \$0.3 million and \$0.6 million for the first half. Expenditures classified as maintenance capital are mainly comprised of new moulds or refurbishment of moulds for replacement packaging driven by customer marketing programs. Expansion capital expenditures were 0.1 million for the first half.

#### Financing activities and instruments

Richards Packaging's credit facilities include a \$43.5 million term loan (2011 - \$47.0 million) with maturity on May 31, 2015 and up to \$5.0 million in revolving debt to fund working capital expansion. The term loan facility bears interest at BA's plus a premium of 1.5% to 2.25% (2011 - 2.5% to 3.25%).

During the second quarter, Richards Packaging extended the term and revolving credit facilities to May 14, 2015 with the interest premium over BA's, or prime rate, lowered by 0.95% and expensed \$0.1 million of associated fees. The credit facilities are subject to a number of covenants including the leverage ratio which is to maintain debt less than 2.75 times the trailing twelve months EBITDA¹. As at June 30, 2012, our leverage ratio was 2.05, lower than the December 31, 2011 level of 2.20 due to the increase in EBITDA. Surplus distributable cash flow² will continue to be utilized to repay term debt to maintain the leverage ratio at acceptable levels with any excess to be used to purchase Units. Combined with cash flow from operations, management believes that adequate financing will be available for the foreseeable future⁴.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

(expressed in thousands, except where otherwise indicated)

July 31, 2012

# Outlook<sup>4</sup>

Management believes that the performance of Richards Packaging is on track to meet ongoing requirements for working capital, capital expenditures and to sustain monthly distributions to unitholders at the current level through 2012.

Revenue growth for the second quarter exceeded expectations but is expected to return to the long term industry average of 1-3% for the third quarter. The impact of exchange translation is expected to increase revenue by \$0.7 million for the third quarter at current exchange rates of U.S./Cdn.\$\$0.99.

EBITDA<sup>1</sup> for the second quarter was \$5.7 million, up \$0.7 million against the same period in 2011 and continues to track at levels exceeding 11% of revenue. The impact of exchange translation is expected to increase EBITDA by \$0.1 million for the third quarter at current exchange rates of U.S./Cdn.\$\$0.99.

Cash income tax expense will be \$0.1 million higher quarterly due to the impact associated with the US bonus depreciation program. Based upon Richards Canada's current tax profile, loss carry forwards will partially shield taxes in 2012 allowing for a substantial return of capital to unitholders.

Maintenance capital will continue to be funded by cash flow from operations and is expected to be \$1.0 million in 2012.

Distributable cash flow  $^2$  sensitivity on annual basis to foreign currency fluctuations is 0.1 million for every U.S./Cdn.  $1\phi$  movement.

#### **Risks and Uncertainties**

Investment in Units involves risks inherent in the ordinary course of business of Richards Packaging including: sustainability of customer and supplier relationships, financial stability of customers, lack of written customer and supplier agreements, competition from other packaging companies, the extent and duration of an economic downturn, patent and trademark challenges, inventory obsolescence, trade risks, resin price and exchange rate fluctuations, interest rate volatility, liquidity risks, income taxes and reliance on key personnel. For a detailed description of these and other risks and uncertainties facing investors in the Fund please refer to the 2011 Annual Information Form dated March 4, 2012. To management's knowledge, no significant changes to these risks and uncertainties have occurred in the first half of 2012.

# **Critical Accounting Estimates**

The preparation of the consolidated financial statements in conformity with Canadian generally accepted accounting practices requires the Fund to make estimates and assumptions which affect the reported, and disclosure of, amounts for assets and liabilities as at June 30, 2012 and revenue and expenses for the period then ended. There have not been any significant changes in the critical

- Management defines EBITDA as earnings before amortization, financial expenses, patent defense costs, unrealized losses (gains) and dividends on exchangeable shares, share of loss (income) Vision and taxes. EBITDA is the same as profit from operations as outlined in the interim financial statements after adding back amortization and patent defense costs. Management believes that in addition to net income, EBITDA is a useful supplemental measure for investors of earnings available for distribution prior to debt service, capital expenditures and taxes. Management uses this measure as a starting point in the determination of earnings available for distribution to unitholders and exchangeable shareholders. In addition, EBITDA is intended to provide additional information on operating performance. This earnings measure should not be construed as an alternative to net income or as an alternative to cash flows from operating, investing and financing activities as a measure of liquidity and cash flows. EBITDA does not have a standardized meaning prescribed by IFRS and therefore the method of calculating EBITDA may not be comparable to similar measures presented by other companies.
- 2 Management defines distributable cash flow, in accordance with Richards Packaging's credit agreement, as EBITDA less interest, cash income tax expense, maintenance capital expenditures. Free cash flow is distributable cash flow less distributions. The objective of presenting this measure is to calculate the amount which is available for distribution to unitholders or exchangeable shareholders and to determine the amount available to fund increases in working capital or expansion capital. Investors are cautioned that distributable cash flow should not be construed as an alternative to cash flow from operating, investing and financing activities as a measure of liquidity and cash flows. Distributable cash flow does not have a standardized meaning prescribed by IFRS and therefore the method of calculating distributable cash flow may not be comparable to similar measures presented by other companies.
- 3 Management defines payout ratio as distributions declared over distributable cash flow<sup>2</sup>. The objective of presenting this measure is to calculate the percentage of distributions compared to the amount available for distribution. Payout ratio does not have a standardized meaning prescribed by IFRS. The method of calculating payout ratio may not be comparable to similar measures presented by other companies.
- 4 The Report to unitholders and this MD&A contains forward-looking information within the meaning of applicable securities laws. The forward-looking information reflects management's current beliefs and expectations regarding the future growth, results of operations, performance and business prospects and
